

# September 2016

## Sullivan Benefits

## Childhood Cancer Awareness

Every day, 43 children in the United States are diagnosed with cancer. Of those children, 12 percent will not survive. September is Childhood Cancer Awareness Month, a time to honor and remember children and families affected by these rare diseases, and help rally support to give kids with cancer better outcomes by supporting ground-breaking research.

By taking steps to fight this disease, all children may have the chance to live a full and healthy life. Besides donating money to the cause of spreading awareness of childhood cancer, consider volunteering your time at one of CureSearch for Children's Cancer's events. There are over 20 walk events in the month of September alone, which are estimated to raise over \$1.75 million for cancer research and support. Donating to children's cancer research can help fund:

- Research
- Clinical trials
- Resources for families

For more information on how you can help, visit [CureSearch.org](http://CureSearch.org).
